Freight Policy

All orders are sold and shipped, F.O.B., Fashion Cabinet Mfg., Inc., shipping dock. All goods are shipped prepaid on a common carrier (LTL) unless the dealer has made other arrangements (i.e., contract carrier or customer Will Call). **It is the responsibility of the dealer to make note of any damage at the time of delivery. Damage claims must be reported to Fashion Cabinet no later than 24 hours after delivery.**

Freight bills on common carrier are based on the number of pounds (minimum of 100 pounds) and the location to which the shipment is going. Common carriers are very flexible with their shipping schedules but the risk of damage is much greater.

Freight bills on a contract carrier are based on the number of cabinets and the location to which the shipment is going (*a minimum delivery charge will apply*).

For packages containing skins, fillers, molding, screws, or shelves, add one (1) box to the freight charge for 1-3 miscellaneous packages and two (2) boxes to the freight charge for 4-6 miscellaneous packages. Taller cabinets such as linen closet, broom closets and oven cabinets, are charged as two (2) cartons. Contract carriers schedule deliveries into areas on certain days. When shipping with a contract carrier, it is best to consolidate orders. The risk of damage is very minimal.

If you would like information about the contract carrier delivering in your area, please contact our shipping department. We will be glad to assist in any way we can.

Fashion Cabinet Mfg., Inc. now offers the ability to palletize your load, the surcharge will vary depending on the size of your order; Please call our shipping department for details. Putting your load on a pallet greatly reduces the risk of damage on LTL carriers while in route to you.
